Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Cruz for disinfection of baggage. Said person is a resident of Vera Cruz and a lieutenant in the Mexican Navy, and immune to yellow fever. I read in a Mexican newspaper the report of 2 cases of yellow fever at Tampico, Mexico, brought by boat from Vera Cruz about June 4. I have as yet not been able to verify this report.

June 14, as follows: I have the honor to make the following reports. International foot and tramway bridge quarantine inspection, vaccinated and allowed entry, 6; inspected and allowed entry without revaccination, 2,405; deported, 4; total inspected for week ended June 10, 1899, 2,415.

June 13, refused entry of 2 persons from Jalapa, Mexico, on account of having ridden on railroad coaches which run to Vera Cruz, Mexico, and are not disinfected. June 14, refused entry to 1 person from Puebla, Mexico, for same cause. These persons and all others will not be allowed entry until five or more days have elapsed since occupation by them of railroad coaches which run to Vera Cruz, Mexico.

Cerebro-spinal meningitis in the United States.

[Continued from last PUBLIC HEALTH REPORTS.]

DISTRICT OF COLUMBIA—*Washington.*—Five deaths were reported from cerebro-spinal meningitis during the week ended June 20.

LOUISIANA—*Shreveport.*—Acting Assistant Surgeon Booth reports 2 deaths for the week ended June 10, and a total of 29 deaths since January 1, 1899.

PENNSYLVANIA—*Philadelphia.*—For the week ended June 17, 1899, 4 cases and 3 deaths were reported.

Smallpox in the United States as reported to the Supervising Surgeon-General United States Marine-Hospital Service, December 31, 1898, to June 23, 1899.
